MEMORANDUM FOR: Chairman, DCI Security Committee

FROM:

Director of Central Intelligence

- Thanks for your response to my request for concise information about what the committee is doing, how well it is doing, and how it might do better.
- 2. The committee seems to have taken on an impressive array of assignments. I share its frustration at not getting more cooperation and more results on leaks and uniform protection of intelligence. It might help if I had a review of how and when prior DCIs have weighed in effectively to read the riot act and otherwise curb laxity in the handling of classified information. Has anybody ever had any success at this?
  - 3. I am expecting a briefing on computer security this week.
- 4. Let me see the comparison of the proposed NSDD on "Telecommunications and Automated Information Systems Security" with the current environment governed by PD-24 and the areas in which the proposed NSDD would have impact on the DCI's statutory and executive order authorities for the protection of sources and methods.
